AMENDMENT

Sir:

Please amend the above-captioned patent application as follows:

In the Claims:

Please amend claims 63 and 68, as follows:

63. (Once amended) A method for generating a pulse responsive to a trigger signal applied to an input node transitioning from a first state to a second state, the method comprising:

coupling the input node to an output node at which the pulse is provided for a period of time in response to the transition of the trigger signal from the first state to the second state;

decoupling the input node from the output node after the period of time has elapsed; and
